## About This Game

A mysterious tower lurks above the skyline, high above the world. As your only mission, you ascend to discover its true meaning. All, before the time runs out.

Nova Flow is a first person, speed running platformer built upon finding a balance in the rhythmic mechanics of the game. Making it from start to finish in the best time possible is your aim; your weapon of manipulation, your instinctive reflexes and a dash of ingenuity are key to obtaining top spot. Nova Flow's simple movement system is coupled with more complex interactions as you progress. These interactions marry together to give the player a rapid and smooth-flowing experience as you traverse a large variety of levels designed to measure your skills and put you to the test as you attempt to best the rest.

As you jump, run, and shoot your Nova Cannon you'll find additional ways to interact with your surroundings and the challenges that confront you. Laser obstacles, strange switch targets and gates to pass through will put you in a spin as you try to find the fastest way through the game's levels.

---

# GAME FEATURES

## 40 LEVELS

Speed, Bounce, and Wall-run your way through the world. As you go, you'll encounter more obstacles and mechanics.

## SPEEDRUN MODES

Get creative with your runs, as you tackle the Standard, Random, and Custom modes. Repeat your runs for the best time.

## LEADERBOARDS

It wouldn't be a speedrunner without leaderboards! Track your best against ours to achieve a medal; Bronze, Silver, Gold, and our coveted Dev times. Compare your times against others too in our online leaderboards!

## PUMPING SOUNDTRACK

An intense score accompanies the gameplay. The up-tempo music sets the rhythm as you run and jump through the game.

### **About Wrecked Angle Studios**

Wrecked Angle Studios is an indie games studio based in Melbourne, Australia. "Nova Flow" is the company's debut title, and has been developed to stand as an entry-point to the game's core genre; Speedrunning. Much of the team have come from backgrounds involving these genres and wanted to tackle this task with simplicity and the player's experience in mind.

Love the concept, love the graphics, love the stable framerate (at least 60 fps on my pc), love the game. It's colorful, fun, addictive, challenging and happy. If that's not gonna convince you to buy it: It has colored grinning jell-o blobs flying and splatting all over the place!!. pretty fair for 4 dollars. i liked the soundtrack and the experience of being alone in space. it would be nice to add more things, such as a goal or mission.

nice graphics, love it. A fine short game. Very cute, although shorter than I wished. Needs to be continued.. None of the games work on my pc. (Windows 7 corei5) The original game is replaced by the 1990 vga remake, but that doesnt matter because none of it runs anyway. Viewing the forums shows many many people with the same problem. Buy the GOG versions instead. Stay away from this trashy non-port.

---

Episode 1: a good start

Episode 2: it's a rocky path

Episode 3: OMGWTFBBQ. Simple, but fun to play. Not sure why it requires all four bass strings to be retuned when the whole song only uses one throughout! Most inconvenient.. This is exactly what I wanted,

BUT

The UK version with Paul Kaye is sooooo much better.

O, how I wish they would release that version.

Hint, ferking, hint!!. Terrible game, waste of time and money.. Truly the best game on steam. Come play this game about love and loss, and carrots. This game is perfect, it cured my cancer and was the first game I've ever played to make me cry. Buy this game if you want to experience true happiness.. th123??20?SC??????
